BY THE BOARD:

On October 15, 2003, United Telephone Company of New Jersey, Inc. ("United" or "Petitioner") filed a petition with the Board of Public Utilities ("Board") to provide 44.736 Mbps (DS3) high speed special access and DS1/DS0 multiplexing services on a month-to-month basis. The typical uses of this service include video, high-speed data and links between local area networks.

Although demand does not currently exist for these services in New Jersey, the Board's Staff has been requested by Petitioner to provide this service in its tariff as part of nationwide marketing plan. The prices shown below, as set by Petitioner, are in excess of resource costs and cover common costs.
